

Symposium on stylus enabled cloud-based learning and teaching in STEM

Calling all faculty! Join the team at RMIT team to delve into the possibilities that stylus enabled technology can have on your teaching and academic life.

Theme of Discussion

The potential for technology in Tertiary Education is vast and ever changing. With the advent of stylus enabled technology there is huge potential to teach differently and with more impact in the Tertiary sector.

Hear from academics, researchers and experts on how digital inking is transforming the education sector at this symposium presented in collaboration with Microsoft Australia.

What topics will we cover?

- The impact a digital stylus can have on teaching and learning
- New ways of driving student engagement and delivering value
- Best practice examples from other Tertiary Educators and thought leaders on Digital transformation
- A platform for you to share your experiences and learnings
- A chance Experience the latest devices & software designed to support Tertiary teaching and learning resources
- Collaboration based Workshops
